

Dear Sirs- K-Love serves many people in our community and if it is displaced by an LPFM with other programing, it will be a tremendous loss. K-Love serves the public interest by haveing a positive program with news and music that are uplifting. There are dozens of stations that have music with indistinguishable lyrics and dj's that use inappropriate language and sarcasm. I like to know that what my child is listening to is safe for his ears. PLEASE insure that K-Love is able to continue it's presence on our airway! Thank you! :)
